## traveler's choice

a fusion of indonesian and indian sanskrit, the word 'jamahal' translates to 'precious time', and perfectly reflects the mantra of this stunning jimbaran hideaway. specialising in personalised service and privacy, the jamahal experience is reserved for guests aged over sixteen to ensure the utmost in romantic ambience and quiet solitude - particularly for couples and honeymooners.

voted 'best boutique hotel in indonesia', the award-winning jamahal private resort & spa nestles quietly near the golden sands of jimbaran bay. only ten minutes away from bali's international airport, the resort feels a world away from the madding crowds despite being strategically positioned for easy excursions to the south bali bukit peninsula, sanur, seminyak and beyond. the stunning nusa dua area is just fifteen minutes away, and two eighteen hole championship golf courses are within easy reach. awarded by millions of real travelers as top hotel, jamahal has won the tripadvisor traveler's choice award 2012 in both categories for excellence in service.

voted the 16th best hotel out of over 90,000 listed hotels across asia, jamahal now stands ahead of a stack of other well-known and prestigious hotels such as the st regis, mandarin oriental, fairmont and six senses. even more impressive is their ranking as the 3rd best hotel in indonesia out of 1770 listed hotels.
